STEPHEN C. OTIS

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of the Village of Clarkston, Michigan as of and for the year ended June 30, 2007, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of the Village of Clarkston, Michigan's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also include assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of the Village of Clarkston, Michigan as of June 30, 2007 and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis and budgetary comparison information as identified in the table of contents, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of the Village of Clarkston, Michigan's basic financial statements. The combining and individual non-major fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual non-major fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Very truly yours,

Jany + knight, PLC
Certified Public Accountants

Bloomfield Hills, Michigan

October 1, 2007

MANAGEMENT'S DISCUSSION AND ANALYSIS

The City of the Village of Clarkston's (the City) management's discussion and analysis is designed to assist the reader in focusing on significant financial issues, provide an overview of the City's financial activity, identify changes in the City's financial position (its ability to address the next and subsequent years' challenges), identify significant variances from the approved budget, and identify individual fund Issues or concerns.

Using this Annual Report

The City's annual report consists of a series of financial statements. The Statement of Net Assets and the Statement of Activities provide information about the activities of the City as a whole and present a longerterm view of the City's finances. Fund financial statements tell how these services were financed in the shortterm, as well as what remains for future spending. Fund financial statements also report the City's operations in more detail than government-wide financial statements.

Government-Wide Financial Statements

The government-wide financial statements consist of the Statement of Net Assets and Statement of Activities. They are designed to be corporate-like in that all governmental and business-type funds are consolidated into columns which add to a total for the primary government. These statements include all assets and liabilities using the accrual basis of accounting. All of the current year's revenues and expenses are also taken into account regardless of timing of cash being paid or received.

The City as a Whole

Net Assets - The City's combined net assets were \$3,405,682 at the close of the year ended June 30, 2007. This represents a decrease of \$68,930 or a 2.0% decrease from a year ago. As we look at governmental activities separately from the business-type activities, we can see that the governmental activities net assets decreased \$63,210. This decrease was primarily the result of assets being depreciated that were capitalized in prior years. The business-type activity had a decrease of \$5,720 in net assets. This decrease was from depreciation of sewer capital assets.

The following table reflects the condensed Statement of Net Assets for the years ended June 30, 2007 and 2006:

Table 1 Statement of Net Assets

JANZ & KNIGHT, P.L.C. - CERTIFIED PUBLIC ACCOUNTANTS

Unrestricted net assets are net assets that can be used to finance day to day operations. Restricted net assets of the City totaled \$1,443,670. These net assets have limitations on their use that were imposed by restrictions such as enabling legislation, grant or bond covenants. The investment in capital assets represents the City's capital assets that provide services to citizens; accordingly, these assets are not available for future spending.

The following table shows the changes in net assets for the years ended June 30, 2007 and 2006:

As shown in the above table total revenues were approximately \$1.33 million, of which 63% was obtained from property taxes, 15% for fees charged for services and 6% for state shared revenues. Total expenses were approximately \$1.40 million, of which 31% was for public safety, 28% for public works and 9% for sewer.

<u>Business Type Activities</u>

The City's business-type activity consists of the Sewer Fund. The City provides sewer service to the entire City.

The <u>City Funds</u>

The analysis of the City's major funds begins on page 9, following the government-wide financial statements. The fund financial statements provide detail information about the most significant funds, not the City as a whole. The City Council creates funds to help manage money for specific purposes as well as to show accountability for certain activities, such as special property tax millages. The City's major funds for 2007 include the General Fund, Major Road Fund, Local Road Fund, Water Debt Fund, SAD 1, 2 and 4 2002 Bond Retirement Fund and SAD 3 2003 Bond Retirement Fund.

O.

The City Funds (continued)

The General Fund is the main operating fund of the City. Total revenues for the year were approximately \$855,200. Of this revenue, 73% was from property taxes, and 10% was from state shared revenues. Total expenditures for the year were approximately \$767,500. Of these expenditures, 53% was for public safety, 7% was for public works, and 24% was for general government. At June 30, 2007 the unreserved fund balance of \$88,276 represented 11% of the total General Fund expenditures for the year.

The Major Road Fund accounts for the repairs, maintenance and construction of all City major streets. The fund balance of this fund at June 30, 2007 was \$41.

The Local Road Fund accounts for repairs, maintenance and construction of all City local streets. The fund balance of this fund at June 30, 2007 was \$9.

The Water Debt Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs. The fund balance of this fund at June 30, 2007 was \$57,494.

The SAD 1, 2 and 4 2002 Bond Retirement Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs. The fund balance of this fund at June 30, 2007 was \$209,162.

The SAD 3 2003 Bond Retirement Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs. The fund balance of this fund at June 30, 2007 was \$188,494.

General Fund Budgetary Highlights

Over the course of the year, the City Council amended the budget to take into account events during the year. Building permit revenue and related expenditures were amended to reflect increased activity during the year. Community Development Block Grant revenue and expenditures were amended to reflect reduced activity. State shared revenue was amended to reflect reduced collections. Contributions and Interest earnings were amended to reflect additional collections. City Hall wages, clerk publications, building and maintenance, vehicle maintenance, and capital outlay were amended to reflect additional costs. Police wages, audit, fire protection, and street lighting were amended to reflect less than anticipated costs.

Most departments were in line with budgeted amounts. Actual revenues exceeded budgeted amount by \$51,009.

Capital Asset and Debt Administration

At the end of June 30, 2007, the City had \$5,704,039 invested in a broad range of capital assets (net of accumulated depreciation), including buildings, equipment, roads, and sewer and water lines.

Major expenditures for capital assets during the year included the following:

- 1. Garage doors \$3,880
- 2. City signs \$6,000.

Long-Term Debt

The City's total Indebtedness at June 30, 2007 was \$4,069,007. The City does not currently have a rating from Standard & Poor's. Additional information on the City's long-term debt can be found in Note F.

June 30, 2007

Economic Factors and Next Year's Budgets and Rates

The City's 2008 budget was prepared using Various economic factors as follows:

Revenues:

Property tax rates for 2008 are as follows:

	2008 Mills <u>Levied</u>	2007 Mills Levied
General operations	12.8943	13.1979
Debt service	4.6455	4.5004

Property tax revenues are expected to increase slightly. This is the result of expected increases in taxable value within the City. Building inspection fees are expected to decrease. Other revenues are expected to be consistent with the prior year amounts.

Expenditures

The City expects building maintenance, building inspector, police supplies, police equipment rental and vehicle maintenance to be lower than the prior year.

The City expects sidewalk maintenance, police legal fees, police gas and oil, and police training to be higher. Police salaries and wages and police dispatch are higher due to the addition of the midhlight shift and contract renewal with Oakland County.

The 2008 General Fund budget expects a surplus of approximately \$17,200. The projected unreserved General Fund's fund balance at June 30, 2008 is approximately \$105,500 which represents approximately 14% of the General Fund expenditures for the year.

Request for Information

This financial report is intended to provide citizens, taxpayers, customers, and investors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have any questions or concerns about this report or need additional information, contact the City Office, at the City of the Village of Clarkston, 375 Depot Road, Clarkston, Michigan 48346.

NOTE A - Summary of Significant Accounting Policies

The accounting policies of the City of the VIIIage of Clarkston (the "City") conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies used by the City of the Village of Clarkston.

Reporting Entity

The City of the Village of Clarkston is governed by an elected seven-member Council. The accompanying financial statements present the City and its component units, entitles for which the City is considered to be financially accountable.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenue.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement_Focus, Basis_of_Accounting_and_Financial_Statement_Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprletary fund and fiduciary fund financial statements. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provided have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current period. Expenditures generally are recorded when a liability is incurred, as under accounting. However, debt service expenditures, expenditures relating to compensated absences, and claims and judgments are recorded only when payment is due.

Revenues are recognized in the accounting period in which they become susceptible to accrual--that is, when they become both measurable and available to finance expenditures of the period. Property taxes, state-shared revenue, interest, reimbursement grants, and charges for services are considered to be susceptible to accrual and so have been recognized as revenue of the current period. All other revenue items are considered to be available only when cash is received by the government.

All proprietary funds are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when they are incurred.

Private-sector standards of accounting issued prior to December 1, 1989, are generally followed in both the government-wide end proprietary fund financial statements to the extent that those standards do not conflict with the standards of the Governmental Accounting Standards Board. The government has elected not to follow private-sector standards issued after November 30, 1989 for its business-type activities.

Amounts reported as program revenue include: (1) charges to customers or applicants for goods, services or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes all taxes.

June 30, 2007

NOTE A - Summary of Significant Accounting Policies (continued)

Governmental Funds:

The City reports the following major governmental funds:

General Fund

The General Fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be account for in another fund.

Major Road Fund

The Major Road Fund accounts for the construction, maintenance, and repairs of all streets classified as "major roads" within the City. Financing is provided primarily by State-shared gas and weight taxes and local contributions. The fund is operated under the provisions of Michigan's Act 51 of the Public Acts of 1951, as amended.

Local Road Eund

The Local Road Fund accounts for the construction, maintenance, and repairs of all streets classified as "local roads" within the City. Financing is provided primarily by State-shared gas and weight taxes and local contributions. The fund is operated under the provisions of Michigan's Act 51 of the Public Acts of 1951, as amended.

Water Debt Fund

The Water Debt fund is a debt service fund used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs associated with the City's water system.

SAD 1, 2 and 4 2002 Bond Retirement Fund

The SAD 1, 2 and 4 2002 Bond Retirement Fund is a debt service fund used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs associated with the City's water system.

SAD 3 2003 Bond Retirement Fund

The SAD 3 2003 Bond Retirement Fund is a debt service fund used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs associated with the City's water system.

Additionally, the City reports the following fund types:

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditures for specified purposes.

Debt Service Funds

Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

<u>Capital Projects Funds</u>

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by the Proprietary Funds and Trust Funds).

June 30, 2007

NOTE A - Summary of Significant Accounting Policies (continued)

Propriety Fund

The City reports the following major proprietary fund:

Sewer Fund

The Sewer Fund accounts for the operation, maintenance and distribution of the sewage system.

Proprietary funds distinguish operating revenue and expenses from nonoperating items. Operating revenue and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the Sewer Fund relates to charges to customers for sales and services. The portion intended to recover the cost of the infrastructure is recognized as nonoperating revenue. Operating expenses for proprietary funds include the costs of sales and services, administrative expenses, and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as nonoperating revenue and expenses.

Property Taxes

Property taxes are levied on each July 1 on the taxable valuation of property as of the preceding December 31. Taxes are considered delinquent on September 1, at which time penalties and interest are assessed.

The 2006 taxable valuation of the City, assessed as of December 31, 2005, totaled \$46,994,380, and is used for the July 1, 2006 tax bills; this resulted in property tax revenue as follows:

	Mills <u>Levied</u>	Property <u>Taxes</u>
General operations	13.1979	\$620,227
Debt service	4.5004	\$211,494

Assets, Liabilities, and Net Assets or Equity

Cash and Investments

Deposits are carried at cost and consist of cash on hand, checking accounts, and investments in mutual funds

For purposes of the Statement of Cash Flows, the City considered cash deposits and certificates of deposits with a maturity of three months or less when purchased to be cash equivalents.

Interfund Receivables and Payables

In general, outstanding balances between funds are reported as "due to/from other funds" on the balance sheet. Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances".

<u>Receivables</u>

All trade and property tax receivables are considered fully collectible by the City. No provision has been made in the financial statements for noncollection.

<u>Prepaid (tems</u>

Certain payments to vendors reflect costs applicable to future years and are recorded as prepaid items in both government-wide and fund financial statements.

June 30, 2007

NOTE A - Summary of Significant Accounting Policies (continued)

Capital Assets

Capital assets, which include land, buildings, building improvements, vehicles, furniture, machinery and equipment and infrastructure are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$1,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Infrastructure assets are long-lived capital assets that normally can be preserved for a significantly greater number of year than most capital assets. The City has elected not to retroactively report infrastructure assets.

Capital assets that are being depreciated are reported not of accumulated depreciation in the statement of net assets. Capital assets that are not being depreciated, such as land, are reported separately.

Capital assets are depreciated over their estimated useful lives. Depreciation expense is reported in the statement of activities by allocating the net cost over the estimated useful life of the assets.

Depreciation of all exhaustible fixed assets used by propriety fund types is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund type balance sheets. Depreciation has been provided over the estimated useful lives.

Property, plant and equipment is depreciated using the straight-line method over the following useful lives:

	<u>Years</u>
Land Improvements	15-30
Sewer System	40
Buildings and Improvements	30-50
Vehicles	6
Machinery and Equipment, Furniture	5-25
Water System	30
Roads	20

Long-Term Obligations

Long-term debt is recognized as a Hability of a governmental fund when due, or when resources have been accumulated in the Debt Service Fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund Hability of a governmental fund. The remaining portion of such obligations is reported in the Statement of Net Assets. Long-term Habilitles expected to be financed from proprietary fund operations are accounted for in those funds. For proprietary fund types, bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount and net of any deferred charges on bond refundings. Issuance costs are reported as deferred charges.

Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance present tentative management plans that are subject to change.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

June 30, 2007

NOTE B - Stewardship, Compliance, and Accountability

Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the General and Special Revenue Funds. All annual appropriations lapse at year end. The City's appropriation resolution is generally passed during the May preceding the year in which the planned expenditures relate. Subsequent amendments are made to avoid unfavorable variances from the original budget. Related resolutions are made to state the purpose and amount of the changes. The City Clerk has the responsibility to enforce the budget. Unused appropriations do not carry forward to the next year.

The budget document presents information by fund, function, department and line items. The legal level (the level at which expenditures may not legally exceed appropriations) of budgetary control adopted by the board is at the department (activity) level.

The City Council must approve budget amendments at the activity level and supplemental appropriations, which affect total fund expenditures. The Clerk can transfer appropriations between line items within a department or activity without governing body approval.

Supplemental appropriations were necessary during the year, which increased total expenditures.

Amounts encumbered for purchase orders, contracts, etc., are not tracked during the year. Budget appropriations are considered to be spent once the goods are delivered or the services rendered.

P.A. 2 of 1968 as amended, provides that a local unit shall not incur expenditures in excess of the amount appropriated in budget resolutions of the governing body.

Excess of Expenditures Over Appropriations in Budgeted Funds

During the year, the City of the Village of Clarkston incurred expenditures in certain budgeted funds which were significantly in excess of the amounts appropriated, as follows:

Fund	Activity	Budget <u>Appropriation</u>	etual <u>enditure</u>	Budget <u>Variance</u>
	Equipment rental Winter maintenance	\$ 22,000	\$ 23,600 8,381 9,202 25,070	\$ 23,600 8,381 9,202 3,070

The CIty does not adopt a budget for Mill Pond Lake Improvement Board. The City collects the special assessment and pays the bills authorized by the lake board. Since the City does not initiate the expenditures they have not adopted a budget.

NOTE C - Deposits and Investments

Michigan Compiled Laws, Section 129.91, authorizes the City to make deposits and invest In the accounts of federally Insured banks, credit unions, and savings and loan associations which have an office in Michigan. The City is allowed to invest in bonds, securities and other direct obligations of the United States or any agency or instrumentality of the United States; United States government or federal agency obligations; repurchase agreements; bankers' acceptance of United States banks; commercial paper rated within the two highest classifications which mature not more than 270 days after the date of purchase; obligations of the State of Michigan or Its political subdivisions which are rated as investment grade; and mutual funds composed of investment vehicles which are legal for direct investment by local units of government in Michigan.

The City has designated various banks for the deposit of City funds. The treasurer keeps a list of approved banks. The investment policy adopted by the board in accordance with Public Act 196 of 1997 has authorized investment in bonds and securities of the United States government, bank accounts and CDs, repurchase agreements, investment pools organized under the local government investment pool act, commercial paper rated within the two highest classifications, and bankers' acceptance of United States banks, but not the remainder of State statutory authority as Ilsted above.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

June 30, 2007

NOTE C - Deposits and Investments (continued)

The City's cash and investments are subject to several types of risk, which are examined in more detail below:

Custodial Credit Risk of Bank Deposits

Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. The City does not have a deposit policy for custodial credit risk. At year end, the City had \$636,674 of bank deposits (checking and savings accounts) that were uninsured and uncollateralized. The City believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. As a result, the City evaluates each financial institution with which it deposits funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

<u>Custodial Credit Risk of Investments</u>

Custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City does not have a policy for custodial credit risk. At year end, the City had no investment securities that were uninsured and unregistered, with securities held by the counterparty or by its trust department or agent but not in the City's name.

Interest Rate Risk

Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates. The City's investment policy does not restrict investment maturitles, other than commercial paper which can only be purchased with a 270-day maturity. At year end, the City had no investments.

Credit Risk

State law limits investments in commercial paper to the top two ratings issued by nationally recognized statistical rating organizations. The City has no investment policy that would further limit Its investment choices.

June 30, 2007

NOTE D - Capital Assets

Capital asset activity of the primary government for the current year was as follows:

Governmental activities: Capital assets being depreciated:	Beginning <u>Balance</u>	Increases	<u>Decreases</u>	Ending Balance
Building and improvements Land Improvements Police vehicles	\$ 74,204 89,068 48,470	\$ 3,880	\$	\$ 78,064 89,068 48,470

activities	<u>\$ 252,235</u>	<u>\$ (29,751)</u>	<u>\$</u>	<u>\$_222,484</u>

Depreciation expense was charged to programs of the primary government as follows:

Governmental activities: General government Public safety Public works Recreation and culture	\$ 6,515 8,774 296,602 4,314
Total governmental activities	<u>\$256,,205</u>
Business-type activities: Sewer	<u>\$ 29,751</u>

June 30, 2007

NOTE E - Interfund Receivables, Payables and Transfers

The following are the interfund receivables at June 30, 2007:

Receivabl <u>e Fund</u>	Payable Fund	<u>Amount</u>
General Fund	Major Street Fund Local Street Fund Sewer Fund Tax Fund	\$ 45,451 16,018 2,205 <u>708</u>
	Total General Fund	<u>\$ 64,382</u>
	Total interfund receivable	<u>\$ 64,38</u> 2

These balances resulted from the time lag between the date that (1) interfund goods and services are provided or reimbursable expenditures occur. (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Interfund Transfers

	<u>Transfers (Out)</u>	
	General	
	<u>Fund</u>	<u>Total</u>
<u>Transfers in</u>		
Major Road Fund	•	\$12,200
Local Road Fund	<u>11,400</u>	<u>11,400</u>
	\$23,600	\$23,600
	<u> </u>	MERCHANCE.

Transfers from the General Fund to the Major Road and Local Road Funds is to subsidize the cost of road expenditures.

NOTE F - Long-Term Debt:

The following is a summary of general long-term debt transactions of the City for the year ended June 30, 2007:

	Gene <u>ral Long-Term Deb</u> t				
	Total	General Obligation Bonds	Special Assessment Bonds	Equipment Contract	Capital Lease <u>Obligation</u>
Long-term debt at July 1, 2006 Payments made during the year	\$4,320,260 <u>(251,254</u>)	\$2,770,000 (70,000)	\$1,450,000 (150,000)		\$ 2,035 (944)
Long-term debt at June 30, 2007	\$4,069,006	\$2,700,000	\$1,300,000	\$ 67,915	\$ 1,091

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

June 30, 2007

NOTE F - Long-Term Debt (continued):

General Obligation Bonds:

On July 14, 2000 the City sold \$800,000 Unlimited Tax General Obligation Bonds for the purpose of constructing a water supply system. On July 12, 2007 these bonds were refunded, see Note L for additional details. The bonds bear interest at a rate of 4.75% to 6.00%. Schedule of required principal and interest payments is as follows:

Year ended	Annual	Annua I
<u>June 30,</u>	<u>Interest</u>	<u>Principal</u>
200B	\$ 40,390	\$ 20,000
2009	39,355	20,000

	\$	1.315	\$ 22,526

Capital Lease Obligations:

On July 14, 2005 the City entered into a lease agreement acquiring a copier in the General Fund at a cost of \$2,850. The agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of the future minimum lease payments as of the inception date on the Statement of Net Assets. The assets are depreclated over the useful life. Depreciation of these assets is included in depreciation expense on the Statement of Activities. The amount of accumulated depreciation on property held under capital leases at June 30, 2007 was \$1,140. Schedule of required interest and principal payments is as follows:

Year ended June 30,	Annual <u>Interest</u>			nnual incipal
2008 2009	\$	40	\$	1,004 87
	<u>\$</u>	40	<u>\$</u>	1,091

The annual requirements to amortize all debt outstanding as of June 30, 2007, including interest payments are as follows:

<u>\$1,647,663</u> <u>\$4,069,006</u>

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

June 30, 2007

NOTE G - Lease Obligation:

Effective January 1, 2006, the City entered into an agreement to lease facilities in Clarkston, Michigan at a total monthly rental of \$2,000.00, exclusive of maintenance and increases in taxes and insurance, which are also payable by the City as lessee. This is a five year lease set to expire December 31, 2010. For the year ended June 30, 2007, the City paid \$24,000.

The future minimum rental payments required are as follows:

<u>June 30,</u>	<u>Amount</u>
2008	\$24,000
2009	24,000
2010	24,000
2011	12,000

NOTE H - Pending Litigation:

ACCOUNTANTS

- CERTIFIED PUBLIC

P.L.C.

JANZ & KNIGHT,

Litigation is currently pending against the City involving various issues. The outcome of these cases cannot be presently determined, however, it is not expected that an adverse decision would exceed insurance coverage. Accordingly, no provision has been made for any potential liability with regard to these lawsuits.

NOTE 1 - The City is exposed to various risks of loss related to property loss, torts, errors and omissions, employee injuries, as well as medical benefits provided to employees. The City has purchased commercial insurance for storage tank and health care. The City participates in the Michigan Municipal Liability and Property Pool for general, auto, professional, public official, employee dishonesty and errors and omissions liabilities. The City also participates in the Michigan Municipal Workers Compensation Fund for workers compensation. The City is uninsured for acts of God and environmental cleanup losses. Settled claims for the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

The Michigan Municipal Liability and Property Pool risk pool program operates as a common risk-sharing management program for local units of government in Michigan; member premiums are used to purchase excess insurance coverage and to pay member claims in excess of deductible amounts.

NOTE J - Building Code Enforcement:

Public Act 245 of 1999 requires that fees generated from regulation of the construction code may only be used for that purpose. Current year revenues and expenditures are as follows:

Accumulated revenues over	· (under) expenditu	res - July 1, 2006		\$9,497
Revenue - fees	•		\$31,697	
Expenditures:				
Inspector fees	\$19,496			
Supplies	480			
Clerical	5,000			
Professional fees	<u>1,213</u>			

Total expenditures <u>26,289</u>

Accumulated revenues over expenditures - June 30, 2007 \$14,905

Accumulated revenues over expenditures at June 30, 2007 have been recorded as reserved fund balance.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

June 30, 2007

NOTE K - Segment Information for Enterprise Fund:

The City maintains one Enterprise Fund which provides sewer services. Segment information for the year ended June 30, 2007 was as follows:

	Sewer Fund
Operating revenue	\$116,582
Operating income (loss)	(14, 166)
Nonoperating revenue	8,446
Net Income (loss)	(5,720)
Land, building, equipment:	
Depreciation	29,751
Net working capital	238,703
Total assets	465,266
Total equity	461,187

NOTE L - <u>Subsequent Event</u>:

On July 12, 2007 general obligation bonds in the amount of \$730,000 were sold for the purpose of retlring \$715,000 of water supply bonds. As a result of the advance refunding, the City reduced its future total debt service requirements by \$89,077, which resulted in an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$33,715.

City Council and Management City of the Village of Clarkston 375 Depot Road Clarkston, Michigan 48346-1418

Dear City Council:

FREDERICK C. JANZ

JOHN E. MIELKE, JR.

JAMES A. STEPHENSON, IX

DAWN M. LENGERS

JOSHUA J. LYNN

STUPHEN C. OTIS

ROBERT I. KNIGHT Kenneth e. Zink

JOHN M. FOSTER

In planning and performing our audit of the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of the Village of Clarkston as of and for the year ended June 30, 2007, in accordance with auditing standards generally accepted in the United States of America, we considered the City of the Village of Clarkston's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. In addition, because of inherent limitations in internal control, including the possibility of management override of controls, misstatements due to error or fraud may occur and not be detected by such controls. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies and other deficiencies that we consider to be material weaknesses.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or a combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control. We consider the following deficiencies to be significant deficiencies in internal control.

The adoption of the Michigan Uniform Local Budgeting Act (Act No. 621, Public Acts of 1978), has made it mandatory that balanced budgets be adopted and that those budgets be amended before expenditures exceed the budgeted amounts. We noted that the budget was amended during the fiscal year in an attempt to comply with the budget requirements. As previously noted, despite the amendments, expenditures exceeded budgeted amounts in various activities. Listed below are the significant budget overruns:

		Budget	Actual	Budget
Fund	Activity	Appropriation	Expenditure	Variance
General	Operating transfers out	\$	\$ 23,600	\$ 23,600
Major Road	Equipment rental		8,381	8,381
Major Road	Winter maintenance		9,202	9,202
Major Road	Salaries	22,000	25,070	3,070

Authorized check signers should never sign a check without the supporting documentation attached or provide a signature on a blank check for a projected future disbursement. A payroll register should accompany the payroll checks as support. The payroll register needs to include each employees name, hours, pay rate and deductions.

Because of the limited office personnel many internal controls are impractical due to the lack of segregation of duties. It is our recommendation that the City Council continuously monitor internal controls and implement as many controls possible to offset risks regarding collections, disbursements, and recording of accounting transactions.

A material weakness is a significant deficiency, or a combination of significant deficiencies, that results in more than a remote likelihood that material misstatement of the financial statements will not be prevented or detected by the entity's internal control. We did not identify any deficiencies which constitute a material weakness.

Additionally, we offer the following general comments and recommendations:

Previous Comments:

During the year the City did implement our recommendation for employee files, but they lacked authorized pay rates as previously recommended. It is recommended that these files be updated to include authorized pay rates.

New Comments:

- 1. To improve the internal control of wire transfers we recommend that two signatures be required just as it is on a check. This should be for transfers between funds and those to outside parties. Besides this control an outside verification should be received by the bank. To assist in this verification, we recommend that all bank accounts be setup for on-line access. Additional banking controls have been discussed privately with the Clerk.
- 2. We recommend that before any disbursements are made all invoices generated by the police and DPW department include the department head signature. If it is unclear what is being purchased, a brief description of the item or service should be inserted. This additional control will ensure the expenditure is valid and the property account is charged.
- 3. It is recommended that all new financial institutions and accounts (checking, savings, CD) be approved by the City Council. It is also generally recommended that authorized check signers be approved annually by the City Council.
- 4. Due to the lack of segregation of duties it is recommended that the City produce a procedures manual on office/accounting operations in the event the City's key employee is not available. During the creation of this manual it is recommended that the City identify and address any areas they feel the City is at risk.

- 5. The Clerk has access to the general ledger, prepares the payables, and is an authorized check signer. To improve internal control we recommend that after the Mayor signs the checks they go to a party independent of the Clerk for mailing. This will eliminate the risk that a valid check may be altered before mailing.
- 6. Due to the lack of segregation of duties the Clerk has access to all aspects of cash. We recommend that all bank statements be mailed to an independent party with no access to cash for inspection. Generally, we would recommend that this independent individual also perform the bank reconciliations but realize this may not be feasible. At a minimum the bank reconciliations should be reviewed upon completion by an independent party.
- 7. Currently, there are inadequate reserves for water major repairs. The City contracts with Independence Township for general repairs and operations of this system but the agreements will not cover repairs of damages from an extraordinary event. The City should investigate the possibility of additional water fees to residents that would be restricted for capital improvements and repairs.

This communication is intended solely for the information and use of the City Council and Management, and others within the City, and not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Certified Public Accountants
